Traveling Photo Session Information

Thank you for choosing Impulsive Concept Designs to come to you for your photos! The most important part of this process is that we have fun while capturing awesome photos for you and your family. I could spend hours typing out a long boring list of things for you; however let's break it down to a simple, fast, and fun process.

- What do I wear?
 - Something comfortable is always going to gain the best natural photo of you.
 - Something that goes with the weather for that day.
 - Clothes that fit properly and flatter you and the surroundings
 - Clothes you are most likely to be wearing on any given day that represents you.
 - Dress clothes for the elegant type photo
 - Less is usually more, be light with your makeup for the day and hairspray, flowing hair is always a great feature in photos.
- How long will this take?
 - This question cannot be answered easily, it really depends on how many people are involved, animals, outfit changes, and the like. Usually a session is an hour to two hours for standard single type sessions. We can adapt depending on your needs. I'm sure you want the most photos to choose from!
 - Be ready to go at your appointment time so additional time is not required for prep unless you need some advice/tips.
- Can my animals be a part of my photos?
 - OF COURSE!!!
 - Please let me know before your session if you want "sparky" or "midnight" to be in your photos.
 - I love taking pictures of people and their pets, animals bring out the best in people!
 - Remember if you want to wear black and your dog is white and shedding, the black outfit may be better suited for an individual photo or one without your dog.
 - Horses are tricky animals to get photos of, additional time may be needed to make sure

ears are up and all that jazz. PLEASE let me know if you have a super sensitive horse before the shoot. Also I refrain from using any type of equipment outside of my camera for equine photos; some post editing may be needed for lighting etc.

- What if it rains or starts raining during our session?
 - We will reschedule or shoot photos up until it does start raining. You may be surprised we may be able to move indoors even and still get some awesome shots depending on your location etc. We make the best out of everything we can!
 - Even some shots in the rain can turn out great, we can get creative!
